

Regional Transportation Alliance

RTA is the business leadership group that provides a strategic, action-oriented focus and a powerful, collaborative voice to advance regional transportation solutions that will attract top talent, grow our prosperity, and sustain our quality of life.

Top priorities for 2011 and 2012:

- Encourage the creation of vetted regional transit plans and prepare for referendum
- Commence construction of the Triangle Connector to I-85 no later than 2014
- Coordinate and support the I-40 Regional Partnership initiative
- Advance High Speed Rail to connect the capitals of Raleigh, Richmond, and Washington
- Assist RDU Airport with outreach efforts for existing and potential flights

Recent successes:

- Accelerated 540/Triangle Expressway turnpike – the largest highway project in NC history
- Advanced regional transit through advocacy for local empowerment legislation and education about emerging transit plans
- Successfully advocated for the accelerated I-40 Cary/Raleigh widening project
- Highlighted regional importance of the Triangle Connector to I-85 that led to funding by 2014
- Spearheaded unified position on US 64 west that led to funded roundabout interchange

Why invest?

- Be a part of the region's only business leadership group solely focused on relieving traffic congestion, avoiding future gridlock, and enhancing travel options throughout the Triangle
- Demonstrate to your employees that you are committed to improving a quality of life issue that is critical to employee satisfaction and talent attraction
- Advocate with the region's top employers and connect with key elected and transportation partners on a crucial issue that will not resolve itself without purpose, focus, and resilience
- Join a strong, unified voice with a demonstrated track record of success in accelerating and improving mobility projects critical to a successful business climate and regional prosperity

RTA members and staff work with fellow business leaders and transportation partners every step of the way – highlighting projects, catalyzing initiatives, lobbying for legislation, bringing key players together, and identifying pathways for success, RTA members get our region moving.

Join your fellow business leaders who have compiled an enviable record of success in accelerating key highway, transit, and air service improvements by working in concert with other partners through the Regional Transportation Alliance.
